No	10/31/2019	04/10/2026

Assurance Agreement for Schoolwide Plan

Upon implementation of the schoolwide plan, the Title I school served a student population in which at least 40% of the students are from low-income families, or the school received a waiver from the Alaska Department of Education & Early Development to operate a schoolwide program without meeting the 40% poverty threshold. The school has completed the schoolwide planning process and has met the requirements of the Title I legislation relating to schoolwide planning, implementation, and evaluation criteria as outlined in section 1114 of the ESEA. The district has worked in consultation with the school as the school developed the schoolwide plan and will continue to assist the school in implementing, evaluating, and revising the plan annually.

Name of Superintendent: Kasie Luke **Name of Principal:** Shakim Blackwell

Signature: KL **Signature:**

Title I Schoolwide Program Overview

A Title I schoolwide program is a comprehensive reform strategy designed to upgrade the entire education program in a Title I school in order to improve the achievement of the lowest achieving students (ESEA section 1114(a)(1)). Under ESEA, a school may initially operate a schoolwide program if it meets any of the following conditions:

- A Title I school with 40% or more of its students living in poverty, regardless of the grades it serves.
- A Title I school that receives a waiver from the Alaska Department of Education & Early Development to operate a schoolwide program without meeting the 40% poverty threshold.

Benefits from Operating a Schoolwide Program

A school that operates a schoolwide program is able to take advantage of numerous benefits, including:

- **Serving all students**. A school operating a schoolwide program does not need to identify particular students as eligible to participate, or individual services as supplementary. (ESEA section 1114(a)(2)(A)).
- **Consolidating Federal, State, and local funds**. A school operating a schoolwide program may consolidate Federal, State, and local education funds to better address the needs of students in the school. (ESEA section 1114(a)(1), (3)).

Consultation and Coordination

- The plan must be developed with the involvement of parents and other members of the community to be served and individuals who will carry out such plan, including teachers, principals, other school leaders, paraprofessionals present in the school, administrators (including administrators of programs described in other parts of this title), the local educational agency, to the extent feasible, tribes and tribal organizations present in the community, and, if appropriate, specialized instructional support personnel, technical assistance providers, school staff, if the plan relates to a secondary school, students, and other individuals determined by the school. (ESEA section 1114(b)(2))
- If appropriate and applicable, the plan must be developed in coordination and integration with other Federal, State, and local services, resources, and programs, such as programs supported under this Act, violence prevention programs, nutrition programs, housing programs, Head Start programs, adult education programs, career and technical education programs, and schools implementing comprehensive support and improvement activities or targeted support and improvement activities. (ESEA section 1114(b)(5))
- The plan must be available to the local educational agency, parents, and the public, and the information contained in such a plan shall be in an understandable and uniform format and, to the extent practicable, provided in a language that the parents can understand. (ESEA section 1114(b)(4))

Implementing a Schoolwide Program

There are three required components of a schoolwide program that are essential to effective implementation: conducting a comprehensive needs assessment, preparing a comprehensive schoolwide plan, and annually reviewing and revising, as necessary, the schoolwide plan.

- **Conducting a comprehensive needs assessment**. To ensure that a school's comprehensive plan best serves the needs of those children who are failing, or are at-risk of failing, to meet the challenging State academic standards, the school must conduct a comprehensive needs assessment. (ESEA section 1114(b)(6)). Through the needs assessment, a school must examine relevant academic achievement data and other data to understand students' most pressing needs and their root causes. The needs assessment should include consultation with a broad range of stakeholders (described above). Where necessary, a school should attempt to engage in interviews, focus groups, or surveys, as well as review data on students, educators, and schools to gain a better understanding of the root causes of the identified needs.

- Preparing a **comprehensive schoolwide plan** that describes how the school will improve academic achievement throughout the school, but particularly for the lowest-achieving students, by addressing the needs identified in the comprehensive needs assessment. (ESEA section 1114(b)(7)).
    - The schoolwide plan must include a description of how the strategies the school will be implementing will provide opportunities and address the learning needs of all students in the school, particularly the needs of the lowest-achieving students. (ESEA section 1114(b)(7)(A)(i), (iii)). The schoolwide plan may include one or more of these activities:
        - counseling, school-based mental health programs, specialized instructional support services, mentoring services, and other strategies to improve students' skills outside the academic subject areas;
        - preparation for and awareness of opportunities for postsecondary education and the workforce, which may include career and technical education programs and broadening secondary school students' access to coursework to earn postsecondary credit while still in high school (such as Advanced Placement, International Baccalaureate, dual or concurrent enrollment, or early college high schools);
        - implementation of a schoolwide tiered model to prevent and address problem behavior, and early intervening services, coordinated with similar activities and services carried out under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.);
        - professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data from academic assessments, and to recruit and retain effective teachers, particularly in high need subjects; and
        - strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs;
    - The plan must also contain descriptions of how the methods and instructional strategies that the school intends to use will strengthen the academic program in the school, increase the amount and quality of learning time, and help provide an enriched and accelerated curriculum, including programs and activities necessary to provide a well-rounded education. (ESEA section 1114(b)(7)(A)(ii)).
    - To ensure that the plan results in progress toward addressing the needs of the school, the plan should include benchmarks for the evaluation of program results. This plan may be integrated into an existing improvement plan.
- **Annually evaluating the schoolwide plan**, using data from the State's assessments, other student performance data, and perception data to determine if the schoolwide program has been effective in addressing the major problem areas and, in turn, increasing student achievement, particularly for the lowest-achieving students. Schools must annually revise the plan, as necessary, based on student needs and the results of the evaluation to ensure continuous improvement. (ESEA section 1114(b)(3)).

Plan Development and Consultation

A. **Describe the composition of the planning team. Provide a list of team members, who they represent, and their roles and/or responsibilities. (Each group should have at least one participant.)**

Schoolwide Program Planning Team

Representation	Name of Team Member	Roles/Responsibilities
Principal: *(required)*	• Shakim Blackwell	Development and implementation
Teachers: *(required)*	• Diana Hejtmanek • Jana Ewing • Isabela Bodily	Secondary Teacher 6-12 implementation Elementary Teacher K-5 implementation
Paraprofessionals: *(required)*	• Nina Garner	Development and implementation Preschool and Classroom Aide
Parents & Community: *(required)*	Local School Advisory Committee or also known as LSAC: • Marty Takak • Mary Isaac • Miranda Lind • Nina Garner	Development and Implementation: Parent/LSAC President/Tribal member Parent/LSAC & Tribal Member Parent/Village Administrator/Tribal Paraprofessional/LSAC Member/Tribal
School Staff *(required)*	• Nina Garner • Inez O'Domin • Clinton Boskofsky	Development and Support: Aide Secretary/Preschool/LSAC & Tribal Member Cook/Tribal Member Maintenance/Tribal Council
Technical Assistance Providers: *(as appropriate)*	Sam Rigby, Schyler Rippie	Technical Support
Administrators: *(as appropriate)*	• Moon McCarley	Instructional Program Implementation and support
***Title Programs**:	• Valerie Hanson	Development and Support
***CTE:**	• Jenny Shyrock	Secondary/High School Support
***Head Start:**	• Amber Kresl	Director of Early Learning and Grants Management for support
Specialized Instructional Support: *(as appropriate)*	• Kathy Freeman	SPED implementation and support
Tribes & Tribal Organizations: *(as applicable)*	• Chignik Lake Village Council	Development
Students: *(if plan relates to secondary school)*	• Courtney Boskofsky	Student Government Officer Student Government President Development and Support
Other:	• Rebecca Stenson	Migratory Education Coordinator

Representation	Name of Team Member	Roles/Responsibilities
(as needed)	• Kacy Lou Leyba • Patty McCasland • Elisabeth Ludwig	Development and Support Social/Emotional and Graduation Support/Student Services/Career Exploration and Planning Social/Emotional and Graduation Support/Student Services/Career Exploration and Planning Social/Emotional and Student Services/Providing for student needs outside of academics

*Administrators of programs that are to be consolidated in the schoolwide plan.

B. Describe the process used to develop the schoolwide plan.

Before the start of the year, a meeting was held with school staff to get input on the current direction of the school, changes they hoped to see, and plans for future success of students. Student needs, academic dates, school climate, and parent/community partnerships were examined. Students' needs were based on observation and assessment data: AK STAR and Amplify Intervention Information in conjunction with district end of level assessments, anecdotal records from teachers, and historical grades. Information regarding school climate and community partnerships was based on observation, input from the Local School Advisory Committee (LSAC), student and community surveys. This plan is still ongoing and under regular review by staff and the LSAC and with guidance from District Leadership.

1. Teachers and Staff meet to perform initial needs assessment based on available data (statistical and anecdotal).
2. Assessment data is presented to the team to determine the areas of need; to prioritize the needs of the school with one to three goals to address. The timeline of the goals will be reviewed yearly to determine if adequate progress is being made or if the plan needs to be reassessed.
3. The School team which consists of staff, teachers, and principal meet to develop an actionable plan to address the identified needs areas.
4. The plan for improvement is presented to the team for review and revisions as necessary.
5. The plan will be presented to the community at the beginning of the school year.
6. Recruitment of stakeholders is to be part of the planning team process that occurs at the beginning of the school year. Monthly Family Engagement nights will welcome families into the school community.

C. Use the following table to summarize the steps and activities of the planning process. Provide information about meeting dates and agenda items/topics as well as future meeting dates.

Meeting Dates Agenda Topics/Planning Steps		Participants at Meetings (check all that apply)		
		Planning Team	All Staff	Parents Community
09/01/25	School Wide data review, plans, ideas, and student support for the school year.		X	
09/18/25	Faculty Meeting Initial Meeting, Plans for the Year, Data from last year review, Student Government, School Updates, Parent and Community Engagement Ideas for the Year	X	X	
10/23/25	Faculty Meeting: School Update, District update, Attendance Data, Student Government, Monthly	X	X	

Meeting Dates Agenda Topics/Planning Steps		Participants at Meetings (check all that apply)		
		Planning Team	All Staff	Parents Community
	Parent Engagement Event Planning, Upcoming Elections, student government trip continued planning NYO support

04/29/26	Four Big Conclusions: Review for the School Improvement Plan/What areas will our school focus on for the most improvement for the next 3 school years.	X	X	X

D. **Describe the process for communicating with all members of the school and community who were not part of the planning team about the planning process, data collection, plan development, and plan approval. Include specific information describing how parents were notified of the schoolwide planning process and involved in the plan development.**

The planning process, data collection, plan development, and plan approval communication is as follows:

*September-Letters sent home to all parents

*Process explained during our annual meeting with the community

*September-process is presented to the Local School Advisory Committee

*November-Recruitment of stakeholders for the planning process and team

*December-Plan Review

*January School Improvement meeting initial meeting and recruitment

*February School Improvement Meeting Practice Review.

*March School Improvement Program Review

*March-New Needs Assessment is completed

*The April-School Wide Plan is addressed using a School Community Survey to help better understand the needs of the school.

*April-The updated plan is presented to the Local School Advisory Committee/community meeting/School Improvement Meetings

*April-Letters sent home about the updated plan and explaining how to access the Schoolwide Plan.

*April School Improvement with Community input and 4 big Conclusions for improvement for the next three years decided as a committee.

The Local School Advisory Committee or also known as LSAC consists of community members, parents, staff, tribal representatives, the principal, and teachers. This team meets monthly to contribute and provide input for the school wide plan and to review progress. The school shares information with parents and community members in a variety of ways. This includes letters, community postings, social media, and community activities. Additionally, as need arises, the principal attends other meetings to share new developments.

Comprehensive Needs Assessment

A. Provide a brief description of the school, attendance area, and community.

We are a Pre-K through 12th grade school with 2 teachers. We have one classroom aide who serves students in the morning and then this aide serves preschool for half a day in the afternoon. The student population is 27 in grades Pre-K-12. Our attendance rate this year is 86% for the school year for grades K-12. This is a 17% increase from last year. Most of our students ride to school or walk. Bus service is not provided. All of our students live within a mile of the school. The community is primarily Aleut. Most community members participate in subsistence hunting and gathering activities. The primary source of income is through work from local agencies and/or commercial fishing.

B. Describe how the comprehensive needs assessment was conducted in an inclusive manner so it reaches all members of the school community (including regular education, special education, talented and gifted, migrant, English Learners, homeless, foster care, etc. as well as low-achieving students), paying particular attention to the needs of educationally disadvantaged children.

Because we have a small student population and a favorable student-teacher ratio, it is not difficult to be inclusive and reach all stakeholders. Teachers are able to provide an optimal environment for including all students in decision making and sharing information. The unique needs of individual learners are addressed in all aspects of instruction, assessment, and communication.

To gain a comprehensive understanding of site needs, data is collected and analyzed from a variety of sources. Some of these include statewide testing, teacher observation, parent and community input, student surveys, parent surveys, and benchmark testing with NWEA MAP. A collaborative staff team examines the data to find areas of strength and weakness, and how needs can be better met. Parents and LSAC members are invited to contribute, regularly.

A review of state and district assessments is as follows (the most updated data is presented).

April 2025 AKSTAR

ELA – 27% Proficient
Math – 23% Proficient

Spring 2025 MAP Data

Language 18% Proficient
Math 32% Proficient
Reading 35% Proficient

April 2024 AKSTAR.

ELA – 35% Proficient
Math – 29% Proficient

Spring 2024 MAP:

Language 20 % Proficient
Reading 45% Proficient
Math 41% Proficient

C. **Summarize the areas of the school's current educational program that need improvement as identified in the comprehensive needs assessment. Identify priority of focus areas for achieving the outcomes of the proposed schoolwide program as being High, Medium, or Low.**

Type of Data Analyzed	Area of Need	Priority	Describe needs determined from data in each area, as applicable (do not include solutions here)
State Summative Assessment and other district assessment data	Reading/language arts instruction for all students	High	Reading has seen a 10% drop compared to previous years scores. Scores need to increase for student proficiency.
	Mathematics instruction for all students	High	The data shows a 10% drop in Math Scores from the previous year. Scores need to increase for student proficiency.
	Science instruction for all students	Medium	
	Other content area instruction for all students	Low	
	Support for students with disabilities	High	Students with disabilities will remain closely monitored and evaluated to determine if their needs are being met.
	Support for migrant students	Medium	The district supports a subsistence based calendar for the school year and special funding data shows that student days of 150 may not support learning based on reading and math scores.
	Economically disadvantaged or low achieving students	Medium	Chignik Lake has 30% or less of learners proficient in math and reading. These scores need to increase.
ELP Assessment (Access 2.0)	Support for EL students to attain proficiency in English	N/A	We have no students identified as ELL.
Graduation & dropout rate	Ensure students will graduate from high school	Low	2023-2024 0% graduation Graduation improvement based on data.
Attendance & Chronic absenteeism rates	Ensure that students attend school and reduce chronic absenteeism	High	2023-2024 Attendance Rate for K-5 was 75% 2023-2024 Attendance Rate for 6-12 was 60% 2024-2025 Attendance Rate for K-5 is 85% 2024-2025 Attendance Rate for 6-12 is 88% Attendance needs to improve to 95%

Type of Data Analyzed	Area of Need	Priority	Describe needs determined from data in each area, as applicable (do not include solutions here)
Demographic data	Support for other populations such as subgroups, homeless, foster care, or neglected & delinquent students	Low	No identified foster students No identified homeless students There are policies and procedures in place to ensure students in these demographics have the opportunity for an education including the removal of school enrollment barriers.
Curriculum	Core curriculum aligned vertically and with state standards	High	Curriculum is not evidence based in reading and math. Data concludes this.
Instruction	Effective instructional strategies and tiered interventions	High	Reading and Math Proficiency remains below 30% for the entire school.
Assessment	Use of formative and progress monitoring assessments to improve instruction	High	Map, Amplify, and STAR, End of Levels are adequate for determining student levels.
Supportive Learning Environment	Safe, orderly learning environment	Low	Protocols in place provide for a safe learning environment.
Family Engagement	Family & community engagement	Low	Family engagement is high with community, cultural, and monthly events: that involve the whole community.
Professional Development (PD) needs assessment	PD to support curriculum, instruction & assessment	Medium	Teacher PD needed to improve proficiency in core academic subjects based on Reading and Math Data. The District has an ongoing P.D. program which includes InService training in August and October as well as “Late Start” Mondays where staff receive P.D. on a monthly planned basis.
Professional Development (PD) needs assessment	PD to support individual teacher skills	Medium	Improvement for teacher efficacy.
Professional Development (PD) needs assessment	PD or strategies for hiring qualified teachers	Low	District Managed
Leadership	Recruiting, training & retaining qualified principals	Low	District Managed

D. **As a result of the comprehensive needs assessment and/or annual review and evaluation of the schoolwide plan, identify three or four goals to be addressed within the comprehensive schoolwide plan during the year for the high priority areas of need identified. Indicate the specific area of need (content, subgroups, etc.). Include current baseline data and a measurable goal/target for the year. In the Evaluation Measure column, indicate what data source will be used to determine whether the target has been met and/or the evaluation tools to be used.**

Area of Need	Baseline Data	Measurable Goal/Target	Evaluation of Measure
Mathematics	See School Improvement Plan	See School Improvement Plan	See School Improvement Plan
Attendance	See School Improvement Plan	See School Improvement Plan	See School Improvement Plan
Reading	See School Improvement Plan	See School Improvement Plan	See School Improvement Plan

Schoolwide Plan Strategies

A. Describe the strategies that the school will be implementing to address the identified school needs.

Attendance:

Increased emphasis on student attendance: In order to make academic gains, students must be at school. School staff will recognize and celebrate great attendance. Teachers and school staff will create a respectful learning environment where they understand that their presence is a key component. Continue strong communication with parents to enable them to take part in the education process: Through Family Engagement events, community outreach and communication, parents will be well informed about issues concerning the school and children's education. This outreach will take the form of community activities, school staff attending community functions, newsletters, and effective use of social media to increase student engagement and attendance.

Math:

Need evidence based math curriculum and professional development to address the needs of our unique learners in math foundational skills in K-5

Reading/Writing

Need evidence based reading curriculum and professional development to address the needs of our unique learners in reading foundational skills K-5

Effective use of professional development time:

In addition to providing collaborative work time and August and October in person InService trainings, site-based professional development will be focused on improving student achievement through best use of available resources and strong instruction.

Teacher Continuity:

Students need a solid foundation and it starts with an elementary teacher. Chignik Lake needs a strong compassionate elementary teacher for K-5 to meet the emotional and the academic needs of the students.

Migratory education funding in partnership with the school wide plan provides tutors districtwide as well as educational supplies for Migrant students.

B. Describe the strategies that the school will use to provide opportunities for all children, including each of the subgroups of students, to meet the challenging State academic standards.

Our goal is to provide the highest quality education to the students of the community. This is done through emphasis on a positive and supportive school climate, positive partnerships with parents and community, support of the best possible instruction, and meeting the academic needs of students through targeted instruction, interventions when needed, and planning.

C. Describe how the school will use methods and instructional strategies that strengthen the academic program in the school, increase the amount and quality of learning time, and help provide an enriched

and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education.

For those students who are not identified as Below Proficient, instruction will be rigorous and intensive so there will be no backward movement.

Instructional scheduling at the School is done based on the learning needs of students.

Resources, (including staff, space, and materials,) are distributed in the way that will best benefit students and their instruction.

Where applicable, eligible students will be encouraged to participate in the Educators Rising program (EdRising), a program committed to creating quality opportunities for students to pursue careers in education.

The Lake and Peninsula School District utilizes its highly qualified classroom teachers to create and strengthen the district's academic programs, enrich and accelerate curriculum, and increase the amount and quality of learning time. When district-wide assessment and teaching resources are needed, Assessment Committee members work over the summer and/or outside of their contract days to create assessment and teaching tools, materials, and resources that help improve instruction and student achievement. All teachers are given professional development training on how to utilize the assessment and teaching resources during District wide inservice days.

D. **Describe how the school will address the needs of those at risk of not meeting the challenging State academic standards.**

Certified teachers will plan and implement intervention instruction with students who are identified as Below Proficient in MAP Growth Assessments, PEAKS assessments, or district measures.

Intervention plans will be reviewed quarterly. The most current data will be used to inform instruction and any changes needed.

Classroom teachers and intervention teachers will meet regularly to assess student needs and collaboratively plan intervention instruction.

Intervention instruction will be planned based on best practices and current research.

Annual Evaluation & Review Process

A. **Describe how the school will evaluate whether the elements of the schoolwide plan have been implemented as planned.**

Benchmark Assessments will be given 3 times per year. The evaluations will be NWEA MAP Growth in K-9 Mathematics and 3-9 Language Arts. Amplify mClass with Dibels 8(also a literacy screener) wll be utilized for K-3 students. The school will ensure scheduled benchmarks are given and communicated with students, parents, and stakeholders.

B. **Describe how the school will measure and report student progress on the State's annual assessments and other indicators of student achievement at the end of the school year, for all students and for subgroups of students.**

Chignik Lake School will measure the data by reviewing growth in NWEA MAP for Mathematics and Language Arts in addition to Amplify mClass with Dibels 8 from the beginning of the year to the end of the school year to monitor growth and progress. The data will be communicated with stakeholders, community, and parents through official letters shared at the beginning of the year for the previous year's data on September 27, 2024 and will hold monthly conferences for mClass data with parents about the progress of those students who are below level. For on level students conferences are held two times a year to review progress and communicate growth with parents.

C. **Describe how the school will evaluate the results of the schoolwide plan in increasing student achievement in meeting the State's academic standards, particularly for those students who have been further from achieving standards, and meeting the goals and objectives in the plan.**

Chignik Lake School will evaluate the results of the school wide plan in increasing student achievement in meeting the State's Academic standards by closely monitoring students who receive extra support through interventions. This data will be updated and reviewed monthly and communicated to parents about the progress of students who are not meeting benchmark standards, especially in grades K-3.

D. **Describe how the school will use the results of the annual evaluation of the effectiveness of the schoolwide plan to make revisions to the plan to ensure continuous improvement of the students in the schoolwide program.**

The data will be collected and reviewed at the beginning of each school year to determine the needs of the school year's academic focus.

Check if used	Dollar Amount	Program funds used to implement components of the schoolwide plan (check all that apply)
X	$220,510	Title I, Part A: Improving Basic Programs Operated by Local Education Agencies: Title I-A funds support a comprehensive strategy to improve the academic performance of all students, with particular attention to the lowest-achieving students. These funds enable implementation of curriculum enhancements, family engagement plans, and supplemental resources. For Lake and Peninsula School District, Title I-A ensures equitable access to high-quality education for students from economically disadvantaged backgrounds.
X	$186,568	Title I, Part C: Education of Migratory Children** This supports the unique needs of migrant students, addressing interrupted schooling and providing equitable access to high-quality instruction.
