Tribal Consultation

Lake and Peninsula School District is excited to build a partnership with your Tribal Council in an effort to provide the best, most relevant education possible for children in your community. LPSD is reaching out to your Tribal Council to get feedback to support students and establish a meaningful line of communication. In order to provide that support, the district is asking for each Tribal Council's thoughts and opinions about the following areas: (1) the educational needs of the your children; (2) the overall operation of educational programs; and (3) development of meaningful consultation opportunities between Tribal Councils and the district. This page includes a short survey that will help the district gather your input. The information will be used to evaluate programs, procedures, and policies of the district.

Who Completes the Survey? Each Tribal Council member, OR a representative appointed by the Tribal Council OR another method that works for you.

Are There More Chances to Provide Feedback? There are a variety of methods for which Tribal Councils/representatives can provide feedback and ask questions about educational programs. These methods include:

• Participate and complete survey forms

• The public comment at local LSAC meetings (contact your local principal)

• Participate in a parent advisory committee and/or grant planning meetings (contact Valerie Hanson at vhanson@lpsd.com

• The public comment time at LPSD School Board meetings (See BoardBook)
